ABOUT US

Adopting experience, imparting skills and manufacturing excellence- these describe LegendPly and its existence best.

A pioneer in wood veneer industry, we are a renowned name in the industry and the trend setters in the realm of Plywood, Block Board, Doors and Decorative Veneer. Transcend in quality, commitments and pricing, we are recognized for our reliability and craftsmanship, which is beyond comparison.

FARQ DIKHEGA!

OUR AIM

LegendPly adopts a unique approach towards its business existence. We aim at giving back to the world and thus adopt such practices & technology that result in waste reduction while keeping the existence of natural resource, like wood, harmless.

VISION

At LegendPly our vision is inspired only by beauty and that motivates us to deliver high quality products that adorn your surroundings with purity. By offering innovative products to help you build your unique interior infrastructure, we quench our thirst for growth and excellence.

MOTIVATION

Behind our confidence and success lies the support of each one of you. Our loyal strategic partners, distributors and dealers, who have helped grow by leaps and bounds. Our loyal customers, who have showered their appreciation and trust in us. Our team of seasoned professionals whose performance is exceptional. Experience the amalgamation of innovation, excellence and beauty at its best.

MAKE IN INDIA

**Why seek from far afield, when we can endorse our own worth?
Why make others richer, when we ourselves yearn for self-growth?**

This is what we, at LegendPly, have been following since our inception as a high quality plywood manufacturing company. We were anxious when our honourable Prime Minister, launched a formal program to promote and spread the similar thought through the 'Make in India' Campaign.' It is a strategic initiative to set-up nation-building activities by transforming India into a hub of global design manufacturing units. No loner can achieve heights and therefore the 'Make in India' dream can be a success only with collaborative efforts.

LegendPly is an organization dedicated to manufacture high quality and immensely beautiful Decorative Veneers, Plywood, Block Board and Flush Door to intensify your home and office interiors. Located near the capital city of India, we are committed to produce superior quality India made products to add gleam and glam to your surroundings. Our government has identified ways to improve Indian work environment by formulating a framework to boost India's global ranking.

Our motto is to become a pioneer global manufacturer of India made Wood Veneers, Plywood, Block Board and Flush Doors by actively following the 'Make in India' belief.

THE WORLD IS THE MIRROR OF YOUR CHOICES

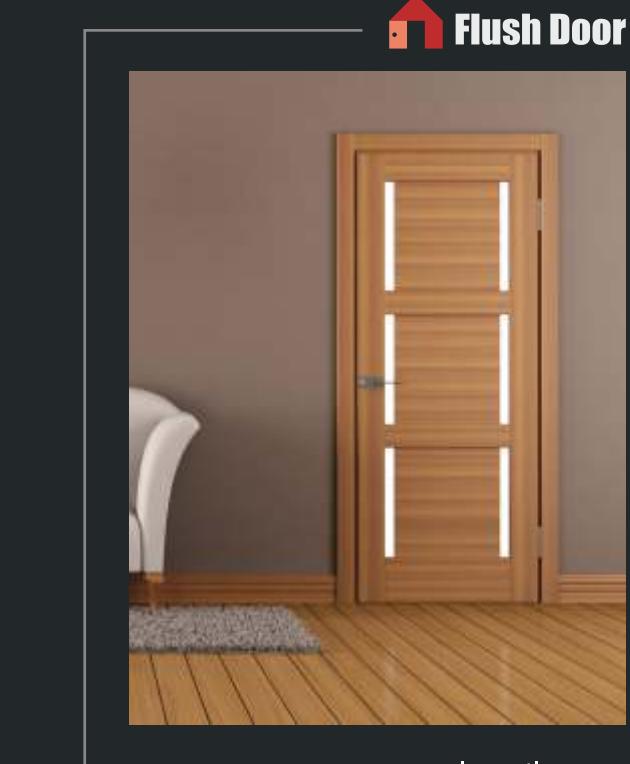

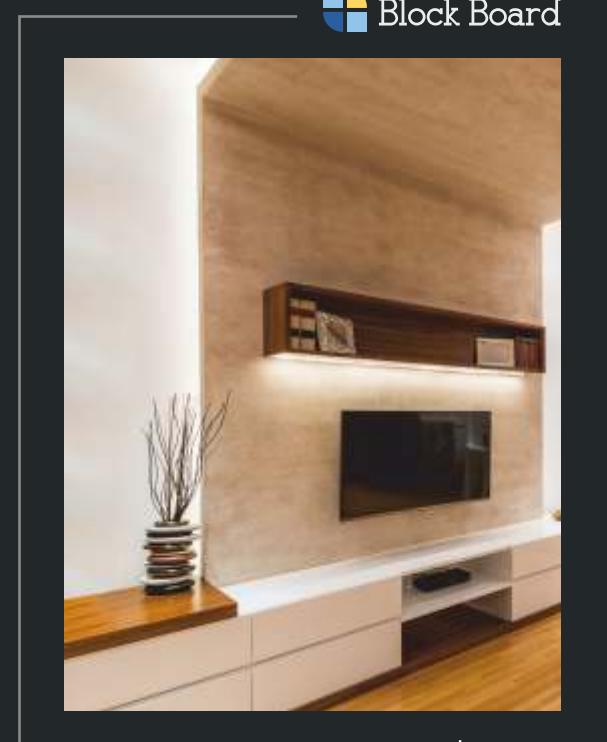

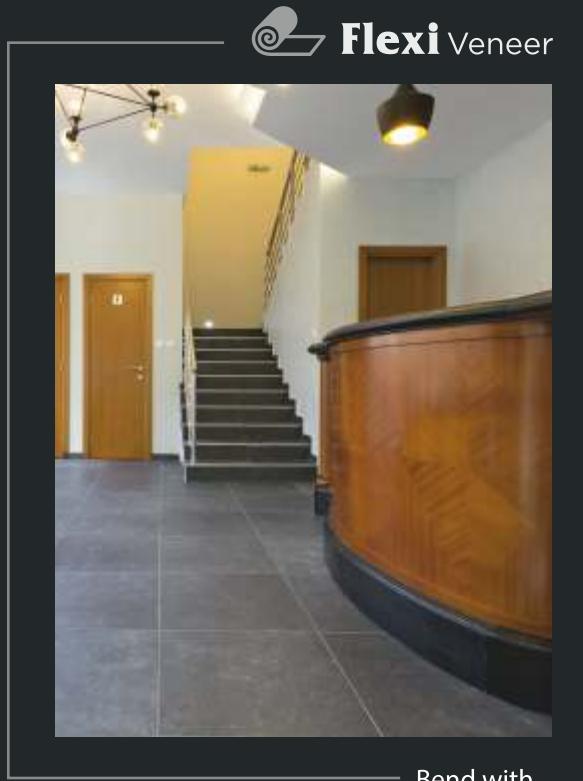

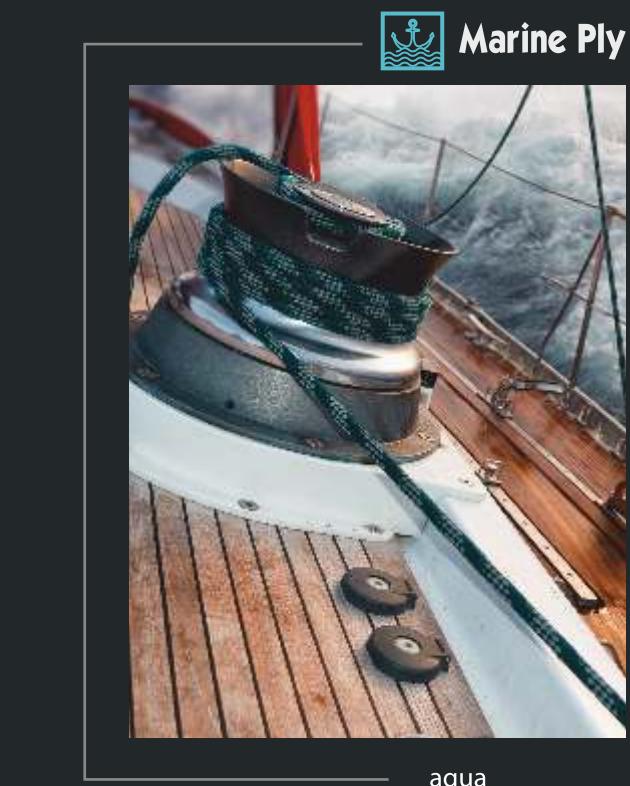

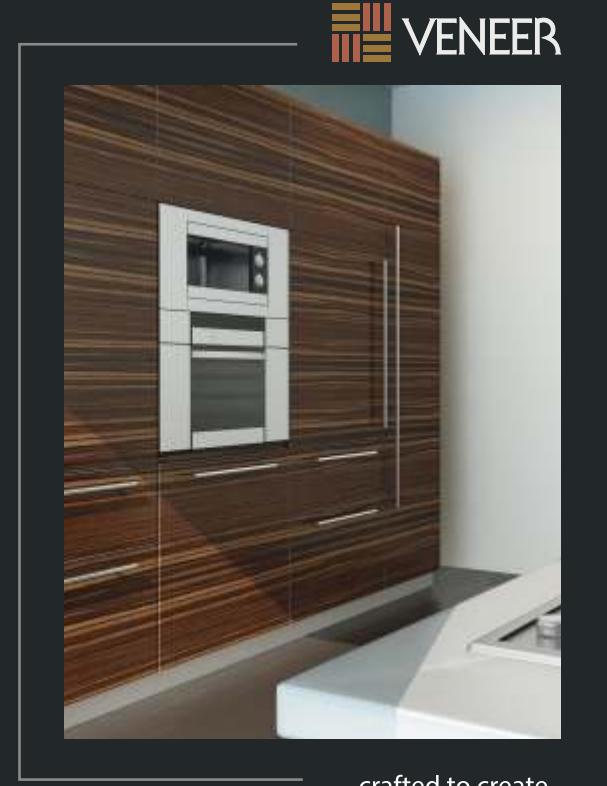

We create the world that we live in, adding a distinctive piece with every choice that we make.

Like, when it comes to our products, we are extremely picky about our choices. We select from exotic plantations across the world and deploy the best production techniques. And that's why when you choose our Veneers, the difference is unmistakably reflected across your own world, too.
